Narrative Summary:

South Carolina built up a substantial number of points midway through the round with Austin Peay (Clarksville, TN) trailing them by 2000 points or so. Austin-Peay did select the Daily Double at the very end of the round but was unable to answer it correctly to get closer to the frontrunner South Carolina. With the exception of UNC Asheville (who did not have a nonzero score), the top three finishers all answered the the Final Jeopardy question correctly.
