UTK ENGINEERING IN LONDON

PROGRAM DESCRIPTION

No other location offers more insights into the birth of our technological world. Come see and learn with us about the origin of the industrial revolution, the "second" industrial revolution of electrical machines, and the birth of the computer age.

This month-long program allows students to get hands on experience visiting significant engineering sights and museums in London and surrounding areas while also completing two courses required for most engineering programs.

During the first three weeks, students will engage in a combination of coursework and course-related excursions as well as several culturally-significant events. In the last week, participants will reside on the campus of the University of Sheffield where they will get hands-on experience in state of the art labs and facilities.

HOW TO GO ABROAD:

- 1 EXPLORE OPTIONS
- 2 FIND DIRECTION
- 3 FUND DREAMS

TERM Summer 1 2025

COURSES (6 credits)

- ME 331: Thermodynamics
- ECE 301: Circuits and Electromechanical Components

PROGRAM FEE

\$6,225 + Course Tuition and Fees

APPLICATION DEADLINES

Priority: 11/24/2024

Standard: 2/2/2025

FACULTY DIRECTORS

Dr. Michael Berry
mberry@utk.edu

Dr. Andrew Dickerson

“ THE VOLUNTEER EXPERIENCE

means lifelong learning and connectedness.

My experience abroad ... has further proved this by the bonding between my classmates and staff.”

Courtney Harkleroad
